

A Platinum Perspective

Exclusive Interview with Bram Gräber, CEO SHV Energy
Platinum Sponsor of the 31st World LPG Forum

1. Forum Voice: Thank you for taking the time to talk to the Forum Voice. Could you tell us what made you decide to become a platinum sponsor of this year's World LPG Forum?

The World LPG Forum is the leading annual global event for our industry. As one of the world's leading LPG distributors, SHV Energy is committed to working sustainably with communities, stakeholders and policymakers. And so is the WLPGA. This year's Forum theme of 'Tomorrow's Energy Today' fits perfectly with our company's purpose to create clean air and dramatically lower our carbon emissions by growing the business. It is part of our journey in Advancing Energy Together.

2. Forum Voice: What are your thoughts on the key opportunities for LPG / propane in the US and the region?

We are very excited about the prospects of further growth in the USA. Last year's acquisition of Pinnacle Propane was a great entry for SHV Energy in the US market. In the meantime, we have made three small add-on acquisitions. This is in line with our strategy as a family owned company to grow our core LPG business in selected markets. SHV Energy has now marketed BioLPG in Europe.

3. Forum Voice: Why, according to you, should delegates attend this year's Forum?

This year's edition excellently combines an ambitious future for our industry, whilst emphasizing the untapped potential and low-hanging fruit of this exceptional energy. Delegates have the opportunity to see the full suite of LPG's benefits and its use in action - in a variety of applications, and in various markets.

4. Forum Voice: What are you most looking forward to during the Forum in Houston?

Having joined SHV Energy recently as its new CEO, I look forward to seeing the entire LPG value chain in action - and in person. The vast and diverse exhibition is a great place to start, with the conference no doubt offering good inspiration.
